

RuDEX: How we've built a self funding business on Bitshares

Petr Asalkhanov

History & Business of BLOCKCHAINED

BLOCKCHAINED is a Decentralized Autonomous Guild/Cooperative (Артель)

Started in August 2016 on Steem, by translating articles into Russian to inform and educate Russian speaking audience about Graphene technology.

Main focuses:

- Education & Development of Russian speaking Graphene community
- Support of network infrastructure
- Development of Apps & Services
- Marketing by example

BLOCKCHAINED in Numbers

- Witness, seed & API nodes in **11** public Graphene-based chains
- Server park totaling over **three dozen** servers maintaining the infrastructure of networks and applications
- A range of working applications and services based on Graphene chains
- RuDEX Decentralized Exchange on Bitshares blockchain
- More than **1000** articles about Graphene ecosystem translated into Russian
- More than **6000** users in the local Telegram based communities for Graphene projects

RuDEX in Numbers

- 9 Bitshares nodes (3 public API + SEED node, Witness+Backup and Tesntet)
- 30+ pull requests in Bitshares core wallet
- RuDEX Decentralized Exchange on Bitshares blockchain, with gateways for 16 cryptocurrencies
- 11 gateways (Graphene based / EOS) with 0% market fee
- More than 400 articles about Bitshares ecosystem translated into Russian
- More than 3600 users in the local Telegram based communities for Bitshares
- Two years of trouble-free operation
- Russian Graphene dev channel with 49 participants

Bitshares Exchange UX/UI Redesign Project

A quote for the development of a new version of Bitshares Decentralized Exchange that is user friendly, intuitive, and responsive. (bitshares.rossul.com)

The Project Team:

ROSSUL (rossul.com)

ROSSUL is one of the top UI/UX design firms in Canada, with over 15 years of experience creating highly usable and intuitive enterprise level web and mobile apps.

Graphene Lab (graphenelab.io)

Graphene Lab is a team of experienced blockchain developers specializing in Graphene based chains.

BLOCKCHAINED — Bitshares PROXY and WITNESS

Done:

- Complete set of instruments for trading
- A large number of successfully operating gateways

In development:

- Public trading bot integrated in the interface
- Trading promotion system
- Cryptoinvoice app
- Own crypto-bridge service
- Service for coin listing
